North Richards Road Reconstruction

Borough of Somerville, NJ

Project Summary

This project involved the reconstruction of a 1,000-foot residential access roadway on North Richards Avenue (from Putnam Street to Adams Street). We improved drainage via storm drain upgrade and cross section percentage increase. We provided compliant ADA ramps within the project area. This project replaced a 2-inch asphalt road that was 40-years old. The project was jointly funded by the New Jersey Department of Transportation (NJDOT) and the Borough of Somerville.

Project Info.

Location: Somerville, NJ
Cost: \$369,785
Started: April 2019
Completed: June 2019
